To Whom It May Concern:

I am writing in regards to the radio station K-LOVE; reference "MB Docket No. 04-233." I listen to K-LOVE in the Chicago, IL area on 94.3. I have been told that LPFM stations may take priority over stations heard on FM translators. Although I do not know if that will affect me in the Chicago area, I want to encourage you to allow K-Love to have priority in all areas it broadcasts in, throughout the entire country.

K-LOVE is basically the only station I listen to in my car and at home (occasionally, I also listen to classical radio on 98.7 WFMT, but not often). K-LOVE plays music that I enjoy without the commercials and advertisements that I do not like. I support K-Love with a \$500.00 annual contribution because I feel their musical programming is vital to my family. My small children (ages 5, 2.5, and 9m) enjoy the songs and sing along with many of them. The programming is positive and encouraging, just like they say it is.

Although we have other Christian radio stations in the Chicago area, I prefer K-LOVE by a long shot. 106.7 The Fish has similar music, but because they are supported by commercials, they are required to play advertisements for groups that are not necessarily Family-friendly, and I prefer not to listen to these types of advertisements. WMBI (Moody)'s station simply does not play the type of programming that I prefer (although I think their programming is wholesome).

I believe that many people flip through radio stations and are pleasantly surprised by K-Love. They continue listening to the station and it has a positive effect on their day. Many people across the country do not have the luxury of multiple Christian radio stations as I do in the Chicago area. K-LOVE is their only uplifting station. If K-LOVE were not on the air, all that would be left for people in many parts of the country would be radio stations that have content that is questionable for young children as well as undesirable for many adults.

Another huge benefit of K-Love is simply that it is broadcast all over the country. I can go out of town and still know that I can find a radio station that I feel comfortable listening to.

Please keep K-LOVE on the air all over the country, in every single city it currently broadcasts in.

Thank you for your time and consideration.

Sincerely,

Stephanie E. Ault Justus
